

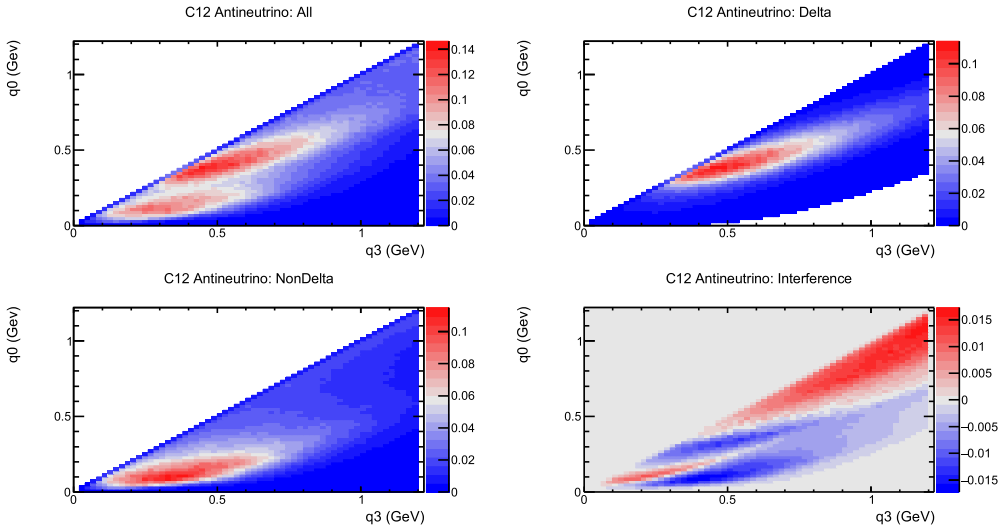

Figure 13: q_0 vs q_3 projection from antineutrinos on carbon pre-tabulated `TH3D`s. See Figure 5 for a description of the plots.

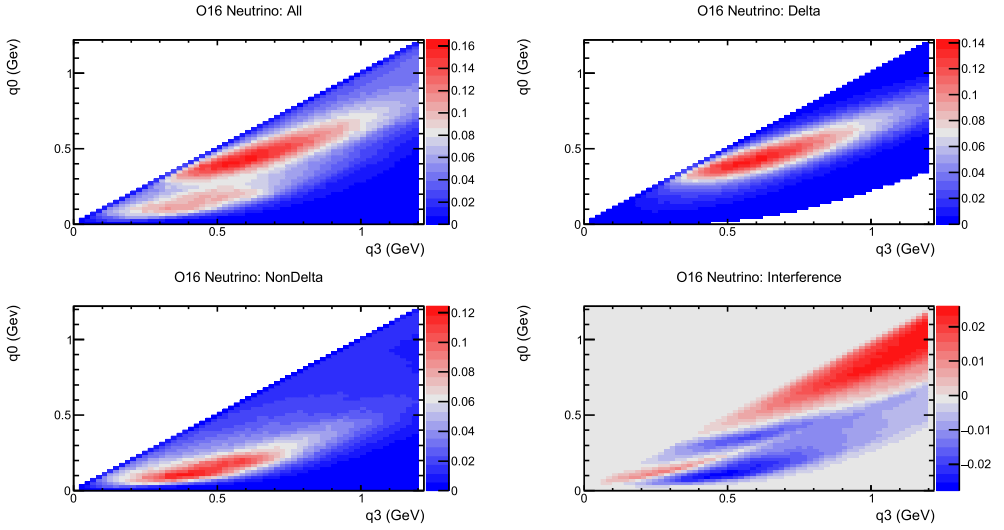

Figure 14: q_0 vs q_3 projection from neutrinos on oxygen pre-tabulated `TH3D`s. See Figure 5 for a description of the plots.

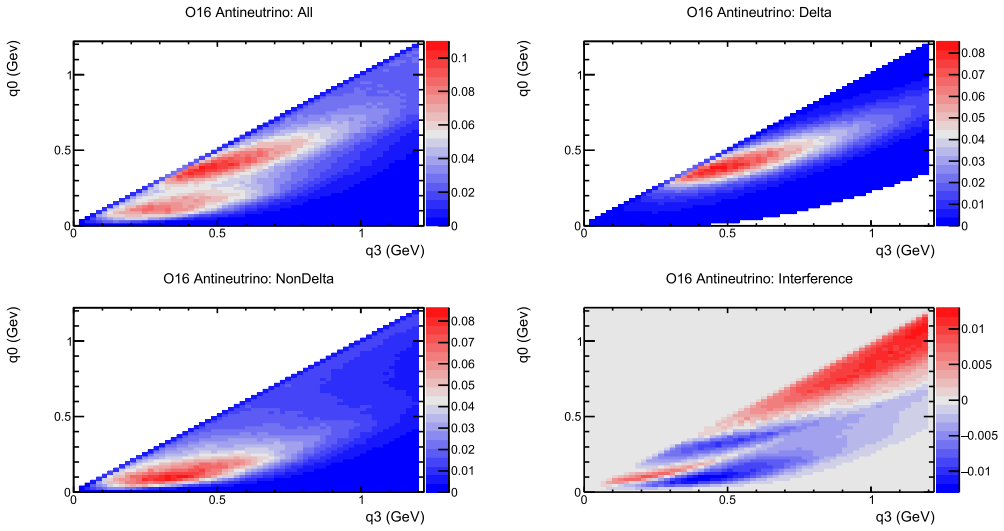

Figure 15: q_0 vs q_3 projection from antineutrinos on oxygen pre-tabulated `TH3D`s. See Figure 5 for a description of the plots.

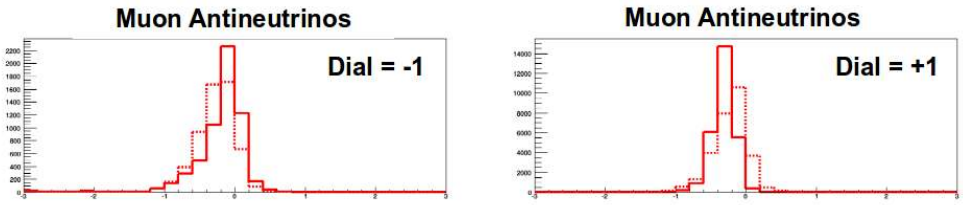

Figure 16: Comparison of the energy difference ($E_{reco} - E_{true}$) for the 2p2h shape dial run over SK muon antineutrino events. See Figure 4 for a description of the plots.

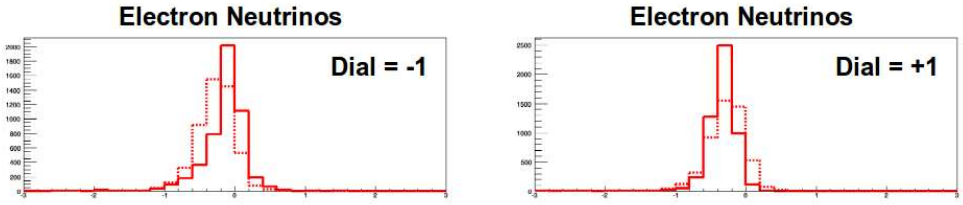

Figure 17: Comparison of the energy difference ($E_{reco} - E_{true}$) for the 2p2h shape dial run over SK electron neutrino events. See Figure 4 for a description of the plots.
