Comments on TN-252v1.2 (VALOR appearance) from Sekiguchi

L41: reference [1] is double counted. Refs [1], [1], [2],…. —> Refs. [1], [2],…

L265: I think the sentence "In Fig. 10 it is… " is for Fig. 9 and should be modified as follows.
In Fig. 9 it is shown the fractional difference in the expected number of single-ring e-like events when switching from the nominal MC templates to NA61-tuned MC templates.

L273: The sentence "Also shown …." should be modified as follows.
Also shown are the ratio of BANFF-tuned spectrum to flux-tuned spectrum in Fig. 10.

In Fig. 11, you should add explanation for left and right plots.

No reference to Figs. 23-27.

In caption of Figs. 32 and 33, (top) and (bottom) should be (left) and (right), respectively.
